**Al-Mawrid USA  
Ghamidi Center for Islamic Learning**

**Overview:**

The purpose of this course is to build a strong foundation for children learning about Islam for the very first time in a classroom setting. The course introduces Islam through Islamic history, personalities, events and stories. For younger ages, this is the most effective method of introducing concepts like God, prophets, creation and many others like ethics, morals, human attitude, values and cultural norms and differences. Also, through historical Islamic events and life stories of mighty prophets of Islam, the course will introduce worship rituals, religious festivals, practices, and utterances of various supplications taught by Prophet Muhammad (peace be upon him). The course will specifically train children to understand, discuss, appreciate and apply the key message and morals behind these historical events and stories and evaluate their daily lives in the light of this learning.

**Objectives:**

At the end of this course the students will be able to:

- Narrate the stories of the lives of the Prophets in Islam
- Understand the wisdom behind stories and how to benefit from them
- Narrate various stories from the Quran
- Memorize and recite Prophetic Duas
- Understand worship rituals, the pillars and wisdom behind these rituals
- Perform their religious rituals correctly e.g. ablution and prayer
- Memorize and recite the utterances in prayer
- Learn about religious festivals and the rituals performed in them e.g. Eid and animal sacrifice.

**Delivery Method:**

The method of instructions will be mainly through storytelling and engaging in discussions on the morals of these stories.

## **Course Outline:**
